PROFESSIONAL SUMMARY

Artificial Intelligence & Data Science student with hands-on project experience in machine learning, deep learning, and full-stack web development. Built and deployed real-world projects like a glaucoma detection system and a phishing detection tool, achieving strong accuracy results. Looking for a Software / ML Engineering role to learn and grow while contributing to real projects.

TECHNICAL SKILLS

Languages: Python, JavaScript

Machine Learning: TensorFlow, Scikit-learn, OpenCV, Hugging Face Transformers, RAG Systems

Web Development: React.js, Node.js, FastAPI, Flask, Streamlit, RESTful APIs

Databases: MySQL, PostgreSQL, ChromaDB

Cloud & DevOps: AWS (EC2), Docker, Firebase, PythonAnywhere

Developer Tools: Git, GitHub, VS Code, Jupyter Notebook, Spyder

PROJECTS

Glaucoma Detection — Deep Learning Diagnostic System

TensorFlow • DenseNet201 • OpenCV • Gradio

- Trained on 6,000+ retinal images with OpenCV preprocessing, achieving 96% accuracy in glaucoma detection.
- Deployed live screening with Gradio (under 2 sec/image), patient history tracking for 100+ users, and automated PDF reports.

RAG-Based Excel Interview Platform

Streamlit • FastAPI • ChromaDB • Hugging Face Transformers

- Built a full-stack RAG system with ChromaDB semantic search and Hugging Face Transformers to generate 50+ Excel questions.
- Attained 89% accuracy in response evaluation against a validated rubric, improving platform reliability.

Phishing Detection

Python • Scikit-learn • Flask

- Trained hybrid ML models (MLP, Decision Tree) on 15,000+ website samples, achieving 92.6% accuracy and 20% fewer false positives.
- Built a real-time Flask interface handling 1,000+ daily URL checks at 0.3 sec/request with 99% uptime.

User Authentication System

Node.js • JWT • bcrypt • RESTful APIs

- Built secure JWT-based auth with bcrypt password hashing, protecting credentials for 500+ users.
- Designed scalable REST APIs handling 1,000+ concurrent requests at under 100 ms response time.

EDUCATION

B.Tech, Artificial Intelligence & Data Science

2022 – 2026

Velammal Institute of Technology, Chennai — CGPA: 8.97 / 10.0

Higher Secondary Certificate (HSC)

2021 – 2022

Sri Aurobindo Matric School, Madurai — 84%

Secondary School Leaving Certificate (SSLC)

2019 – 2020

Sri Aurobindo Matric School, Madurai — 94.4%

CERTIFICATIONS

- Generative AI — Infosys Springboard (Feb 2025)
- AWS Cloud Foundations — AWS Academy (Jul 2025)
- SQL — Datadna Graders (Oct 2025)
- Machine Learning — Reccsaar (Nov 2025)
